The Massachusetts Tri-County Highway Superintendent's Association is pleased to sponsor the 2013 Driver Skills and Safety Training Event. This event is designed to demonstrate teamwork, safety awareness, and vehicle operating skills in a competitive, fun setting. Please note that this event is offered for the Franklin, Hampshire and Hampden County geographic areas and its local highway and municipal departments only.

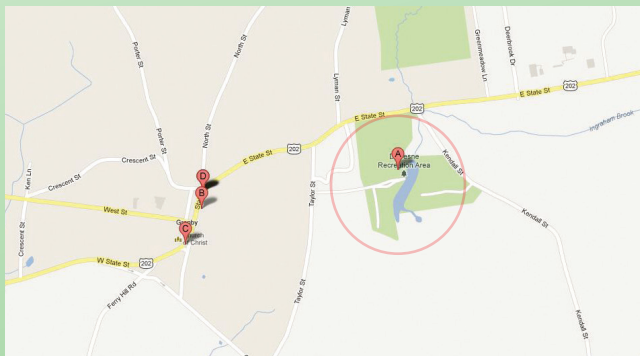

Who Is Eligible?

Any employee of a highway or public works department of a city or town in Hampden, Hampshire and Franklin Counties who is in possession of a valid CDL license. Registration is limited to no more than two (2) teams from each city or town. A team consists of two (2) eligible registrants.

Come Join Us For:

- Valuable hands-on training exercises
- A day of friendly competition
- Awards & prizes
- Lunch, courtesy of the TCHSA

Prizes:

Prizes will be awarded to each member of the first overall team and the 2nd overall team. First and second place winners will be invited to compete in the 2013 statewide Driver Skills and Safety Training.

Additional Information:

- Only one attempt per event
- Time is used only to break ties
- Safety is our main objective

What are the Team Events?

Event 1 - Safety Quiz

Safety Quiz is a multiple choice test for evaluation of a team's knowledge regarding defensive driving and winter maintenance operations.

Event 2 - Pre-Trip Inspection

Inspection of the snow removal vehicles as taught/required under CDL testing. Team members may communicate and discuss items during the 15 minute inspection, however, only one member is allowed to speak to the judge.

Event 3 - Front Plow Mounting

Intended to evaluate a team's skill, teamwork and safety awareness in aligning and hitching the front plow correctly to a 3/4 ton truck's plow frame. Seven minutes are provided to complete the hitch.

Event 4 - Backing with Compressor

Intended to evaluate a team's skill in backing a combination of vehicles through a winding route and into a simulated parking area. Vehicle and compressor are reversed 150 feet. Spotter must be in line of sight of driver at all times and is not allowed within the course marked with cones.

Event 5 - Plow Slalom

Plow slalom is used to evaluate a team's ability to safely maneuver a plow truck without any part of the vehicle (including the plow) coming in contact with any obstacles such as traffic cones, barriers, barrels, etc.

This Baystate Roads Program (LTAP) event is a cooperative effort of the Federal Highway Administration, MassDOT and the University of Massachusetts Transportation Center.
