

DESCRIPTION

Course Objectives:

You will learn how to:

- Troubleshoot the Hot Mix Asphalt (HMA) mat
- Understand the need for density and how to get it
- Order tests that insure quality
- Place Hot Mix Asphalt (HMA)
- Increase your confidence when dealing with contractors
- Order the right mix for your project
- Inspect to enforce standards

Contact the Baystate Roads Program for additional information at: info@baystateroads.org
Maximum class size is 40.

SPEAKER

Matt LaChance
Pavement Field Operations Manager
Vanasse Hangen Brustlin, Inc.

Mr. LaChance has over 20 years of experience in the evaluation, inspection, and testing of hot mix asphalt pavements. He has led the field pavement quality assurance efforts on a number of significant highway and airport paving projects, as well as municipal annual paving programs. He conducts classroom and hands-on training for both paving contractor and owner agency personnel in proper paving techniques and paving inspection procedures.

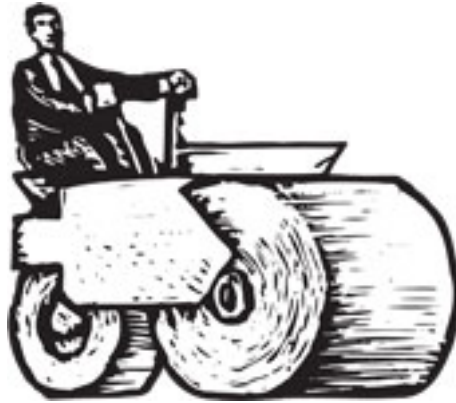

WHO SHOULD ATTEND

- Highway Dept engineers or technicians
- PUBLIC WORKS SUPERINTENDANTS
- SUPERVISORS WHO ARE INVOLVED WITH OR HAVE OVERSIGHT OF HMA PAVING OPERATIONS

This course counts towards 1 Roads
Scholar Credit
