3:40 pm	National Q& A/Discussion
4:00 pm	Adjourn

Traffic Incident Management (TIM)

Traffic Incident Management (TIM) is a planned and coordinated multidisciplinary practice designed to detect, respond to, and clear traffic incidents that allows traffic flow to be restored as safely and quickly as possible. This EDC Exchange will present information about Tier I of this training. Tier I training includes on-scene activities including detection/verification, response, site management, clearance/ removal, and traffic management with a focus on responder safety.

Responders from different TIM disciplines, including Law Enforcement, Emergency Medical Services (EMS), Fire and Rescue, Departments of Transportation, Towing and Recovery providers, and Notification and Dispatch, are encouraged to attend this Exchange.

To register got to the [Baystate Roads Program website](#) or call 413-577-2762
